Platinum Level Service Package

About PSstar E-commerce Platinum Package

This service is available to large owner establishment customers with either a large service center of one location, multiple large, middle-sized, or small service center locations. The service features will include all of the template structure services combined with other customized service structures that will best suit the needs of the service provider customers.

The owner customers' main featured services, at this level, will be the main point-of-sales solution. This solution will allow the establishment owners to offer a full-scale online transaction service to their customers in all of their service centers. Customer services provided will be setup with the online point-of-sales system and solution services infrastructure network, along with a full-scale technical support. The establishment owner customers will be provided the services center support system, the back office support features, as well as other features that support their service center operations.

The Platinum Package point services will provide Template I-IV services as an additional optional feature, which will include the following:

Service Fees

Monthly service fees: $250.00

Service Templates I-IV/customer custom setup: Cost - $79.99

Annual Service Cost: $3000.00 (solution system uses Plus Technical Support)
