

Dear Public Relations Director,

GN-Networks Logistics-Technologies is a dynamic software development and services solution application provider. GN-Networks develops and provides web-based solution applications for businesses in markets that include hospitality and entertainment service industries. Our solution applications are web-based and customized to meet the needs of business clients and their customers.

Our innovative company is launching new competitive systems - the **PSstar System** for service providers, and **Gn-Networks Consulting**, which provides consulting services and solutions development for service-industry businesses.

PSstar System is a new management workflow system, designed as an online-based software solution application that supports service providers such as hotels, restaurants, sport and event centers, amusement parks, transportation services and other service providers in the market industry. Our PSstar System solutions include:

- Restaurant Services Reservation Plus™
- Hotel Concierges Services Manager™
- Events Planners Convention Services System
- Business Enterprise E-commerce Suit Solution
- Online Service delivery Portal, for services provides and services users.
- Online Services Portal Point of Sale System

PSstar System is provided online as a shared system or as a customized licensed application to individual businesses. PSstar is truly a revolutionary product with convenience and time-saving features at its core, which efficiently improve businesses bottom-line.

Our mission is to advance the goals and objectives of your business by providing impeccable service that you can pass along to your customers. We ensure that you and your customers can enjoy the benefits that our products and services offer. With our services we can increase your sales and improve your bottom line. Our services and strategic development will help accomplish your business needs.

GN-Networks takes extreme care in selecting and providing technology that gives your clients and consumers the best, most current advantages. We know you want to excel in your business and you need effective resources to make you money. GN-Networks found a method to take 30%-100% of the risk out of intangible projects. Our pledge is to make you money with our resources and solutions.

For additional information on our services, visit us at www.gnnetworks.com, email us at info@gnnetworks.com, or reach us by phone at **1-800-257-0320**. We know you have a lot of options for your business needs. Thank you in advance for your interest in our company.

Cordially,
Gabriel Adel (President & Ceo)
